

Trade Union DEMOCRAT

A NEW WEAPON AGAINST SEARCHLIGHT

The Searchlight organisation have recently targeted the Trade Unions as a potential source of revenue to fund their undemocratic activities. Through their **TUFS (Trade Union Friends of Searchlight)** they have been moderately successful in soliciting funds from a few union branches that are either too naïve to realise the truth about Searchlight, or are tightly controlled by the type of political extremists that are sympathetic to Searchlight's policies of harassment and intimidation.

But now **YOU** have a change to educate your fellow trade unionists by distributing *Trade Union Democrat*, the publication that highlights the activities and policies of Searchlight and its fellow travellers.

A sample copy of *Trade Union Democrat* is available for just two first class stamps. Five copies cost just £1. Ten Copies for £1.75.
